A Year in Palm Beach: Life in an Alternate Universe

By Pamela Acheson Myers and Richard B. Myers

Two Thousand Three Associates \$26.95

This book is an adventure, a memoir, a love story, and a coming-of-age book for baby boomers. On a whim, the authors move to Palm Beach for one year. What begins as a playful adventure turns into a life-changing event. This wise book shows it is not the stuff we have but how we live our life that is important. In the style of Peter Mayle's *A Year in Provence* and Frances Mayes' *Under the Tuscan Sun*, this book shows that sometimes a move to a new location can also mean a move to a new and better place in your life. As the authors' year unfolds, they also provide a finely-painted portrait of Palm Beach, from the mega yachts, mansions, and millionaires to laws that forbid dogs from barking or dictate the height of one's lawn. The authors swap stories with Jimmy Buffett, kick soccer balls with Rod Stewart, and have cocktails with monkeys on a yacht. This remarkable book gives readers the chance to live a fun, adventure-filled year in Palm Beach and to see how one couple came to find out what was most important to them and how they wanted to live the rest of their life.

New York Living: Re-Inventing Home

By Paul Gunther, Gay Giordano and Charles Davey, Foreword by Adele Chatfield-Taylor, photographed by Mick Hales

Rizzoli \$60.00

What does a home look like in twenty-first-century New York? While the city's name alone brings to mind very specific ideas—the Fifth Avenue penthouse, with its elegant moldings and crystal chandeliers; the SoHo loft, with its bright spaces and air of bohemian ease; the Brooklyn brownstone, with its fireplaces, parquet floors, and lush backyards—the truth is, New York today is much more than this, and the potential for variety in ways of living is, now more than ever, virtually limitless. As a result, in the twenty-first century, the combined design professions enjoy an unprecedented menu of prospective solutions, whether based upon respect for a classically inflected New York past, an emphatic denial of such a tradition, or, most often, some hybrid response that often yields the best innovation possible.

Highland Retreats

By Mary Miers

Rizzoli \$65.00

Featuring breathtaking photographs of some of Scotland's most remarkable and little-known houses, this book tells the story of how incomers adopted the North of Scotland as a recreational paradise and left an astonishing legacy of architecture and decoration inspired by the romanticized image of the Highlands. Known as shooting lodges because they were designed principally to accommodate the parties of guests that flocked north for the annual sporting season, these houses range from Picturesque *cottages ornées* and Scotch Baronial castles to Arts and Crafts mansions and modern eco-lodges. While their designs respond to some of Britain's wildest and most stirring landscapes, inside many were equipped with the latest domestic technology and boasted opulent decoration and furnishings from the smartest London and Parisian firms. A good number survive little altered in their original state, and some are still owned by descendants of the families that built them.
